Bellini

Alcohol free

A traditional Venetian Cocktail, made zero

The Bellini's history is deeply tied to seasonality and craftsmanship. Originally enjoyed only in summer, when white peaches reached peak ripeness, it later became one of the world's most iconic cocktails, recognized by the IBA (International Bartenders Association).

Bellini Zero is a natural alcohol-free interpretation of this classic. It is made from grape must, not dealcoholized wine, preserving freshness and balance while staying true to the original spirit of the Bellini.

At its heart are white peaches personally overseen by the Canella family and harvested at perfect ripeness. The recipe blends grape must, white peach purée, and a delicate touch of raspberry juice, recreating the Bellini's signature elegance and iconic pink hue in a refined, alcohol-free expression.
